A GREAT CITY DIRECTORY ORGANIZATION SERVING

3,651,320 People in the most densely populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.

FINANCIAL SITUATION

Earnings and savings in this area are high. Cash savings, savings banks, and savings and loan associations in the Springfield Area were estimated by Future Springfield, Inc. to be over $1,000 per capita in 1959. Moreover, the prospects remain good for the continuing availability of risk capital in the Springfield Area.

Springfield has four commercial banks, five savings banks, and three savings and loan associations. The city was chosen as the logical location for the establishment of the district branch of the Federal Farm Credit System covering New England, New York and New Jersey.

Founded in 1851, the Massachusetts Mutual Life Insurance Company ranks among the top 10 life insurance companies in the United States and is one of the 40 largest business corporations in America, based on its assets of $2.7 billion.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY 1295 STATE STREET, SPRINGFIELD

Described as "particularly a policyholder's company," the Massachusetts Mutual enjoys a nationwide reputation for the quality of its policy contracts and service and its outstanding field force. It provides almost $10 billion of life insurance protection for more than 700,000 holders of individual policies and more than one million group certificate holders. Over $2 billion has been disbursed to policyholders and beneficiaries since the company was organized.

Its nationwide operations include 116 general agencies, 40 group offices and ten mortgage loan and real estate offices. The company's life insurance sales have more than tripled in the past decade and currently total over one billion dollars annually.

The Massachusetts Mutual employs 2,000 persons in the local area.

Springfield Insurance Company and Monarch Life Insurance Company became affiliated in 1958. These companies, with their affiliates, are now known as Springfield-Monarch Insurance Companies and write all major forms of insurance.

Springfield Insurance Company ("Fire and Marine" was deleted from the corporate name of the company as of December 31, 1960) was incorporated in 1849 and has paid dividends to stockholders continuously since 1867. Monarch Life was founded in 1901 and is one of the nation's leading writers of non-cancellable, guaranteed continuable health and accident insurance with a guaranteed premium rate. The other company in this group is: Springfield Life Insurance Company, Inc., Brattleboro, Vt.

These two insurance organizations (Massachusetts Mutual and Springfield-Monarch) employ over 2,800 persons in the local area.

This digest of the history of Springfield's two largest insurance companies is intended to indicate the scope of one of the city's white collar industries. The city's claim of diversification does not apply alone to diversified manufacturing. We have maintained a healthy balance between diversified manufacturing and diversified service industries of which insurance is a fine example.

Springfield College Memorial Field House, dedicated in February, 1948, to Springfield College Students and Alumni who died in World War II.

THE CROSSROADS OF NEW ENGLAND

Springfield is the Western Gateway to New England. The city's effective location serves to enhance the area as a transportation, industrial and trade center.

In transportation the greater Springfield Area is bisected by two major highways and serviced by two major commercial airports and three major railroads. Tourists drive on excellent roads to Springfield, to the rest of Massachusetts and to the other New England states. The construction of U. S. Route 91 will eventually place Springfield and the surrounding area along a continuous expressway from Philadelphia to Canada.

For over one hundred years Springfield has been characterized by widespread industrial diversification and outstanding skill among its mechanical trade workers. Of more recent origin has been Springfield's development as a trading center.

The city attracts persons from the greater Springfield Area who seek ample shopping facilities, excellent stores, fine restaurants and hotels. Particularly in recent years the city has grown as a wholesale as well as a retail center. In the greater Springfield Area are also located the Eastern States Farmers' Exchange, the Hampden County Improvement League and other agencies working for agricultural improvement in New England.

The Springfield Area has an ample share of fine hotels and motels and each year the city of Springfield becomes headquarters for approximately 47,000 convention delegates. The Joint Civic Agencies of Greater Springfield, Inc. operates a Convention and Visitors Bureau which actively solicits convention business. For over sixty years it has functioned as a counsel and guide to those seeking information and advice about Springfield. Joint Civic Agencies has a research division which makes reliable studies based on full time research on Springfield and the greater Springfield Area.

THE CITY TODAY

Springfield was settled in 1636 as a colonial outpost by a band of men led by the explorer and entrepreneur, William Pynchon. The outpost became a town in 1641 and was incorporated as a city in 1852. The smaller towns of West Springfield, Longmeadow, East Longmeadow, Ludlow, Agawam and the city of Chicopee eventually grew up adjacent to the original settlement.

The city and the rest of the Springfield-Chicopee-Holyoke Metropolitan Area have grown to a population of 478,592, according to the 1960 Federal Census. Excellent turnpike routes make Springfield accessible to Boston (90 miles), New York City (126 miles), and Albany (94 miles).

BUSINESS SECTION — CITY OF SPRINGFIELD

PUBLIC SERVICE INSTITUTIONS

Springfield is fortunate in having public utility organizations which aid in the development of the community. Under the municipality there operates a Springfield Water Works which provides the community with excellent drinking water piped to the city from the eastern foothills of the Berkshires. An excellent reservoir system of great capacity provides a flow adequate to care for the city for many years to come.

Springfield has long been recognized as a community in which the educational facilities are of an unusually high standard. The excellent public schools' program leads the pupil through the primary grades and junior high schools into one of four high schools of excellent standing and character. In Classical High School the curriculum is of an essentially academic character and provides for the continuance of education in colleges and universities. In Technical High School courses are offered leading directly to industrial work or to higher engineering colleges. In the High School of Commerce the pupil is prepared thoroughly for a business career, and in the Springfield Trade High School the pupil is well prepared for skills in industrial employment.

SPRINGFIELD TRADE HIGH SCHOOL

THE QUADRANGLE

The Quadrangle, the historical and educational center of Springfield, is located in the heart of the city. Here the latest books, scientific and historical exhibits, paintings and sculpture can be enjoyed by the public. The Museum of Fine Arts, the Museum of Natural History (with the Seymour Planetarium), the George Walter Vincent Smith Museum, the City Library and the Connecticut Valley Historical Museum are all located in the Quadrangle.

The Springfield Area is stimulating culturally for those who follow the arts. There are varied and numerous painting, dancing and writing groups. Springfield has two symphony orchestras (the Springfield Symphony Orchestra and the Young People's Symphony) and a number of singing groups and choruses. The City Library provides a wide selection of books, pictures, phonograph records as well as many excellent special services for adolescents and children. The city is also served by excellent colleges: Springfield College, American International College, Western New England College and St. Joseph's Normal College. There are also many churches and community civic organizations which serve the needs, beliefs and interests of Springfield citizens.

Springfield has dwelling units for about 50,000 families and has long been known as a community of home lovers. The heterogeneous population lives in a peaceful community. Abundance of water power in the valley has caused the erection of large hydroelectric stations which provide reasonable electrical rates for home owners.

FARM CREDIT BANKS

Since 1917 Springfield has been the northeast headquarters for a cooperative farm credit system which now comprises the Federal Land Bank of Springfield, the Federal Intermediate Credit Bank of Springfield, and the Springfield Bank for Cooperatives. These credit organizations are known as the Farm Credit Banks of Springfield and they serve the six New England States, New York and New Jersey. As of Dec. 31, 1963, their combined assets were nearly $258,570,000 with outstanding loans to northeast farmers and their cooperatives of about $240,115,000.

INDUSTRIAL SITUATION

The most outstanding characteristic in the industrial growth of Springfield and the surrounding area for over 150 years has been widespread industrial diversification. In 1959, thirty-six manufacturers in the Springfield-Holyoke Metropolitan Area employed 500 or more persons, but none employed more than 3,500 individuals. The metropolitan area's diversification is thus marked by numerous medium and small manufacturers in varied lines. The manufacture of electrical tools and equipment slightly predominates all other types of production. Many of Springfield's factories manufacture products known the world over and spread the city's fame into many lands. Monsanto Chemical products, Bosch magnetos, Smith & Wesson revolvers, Springfield rifles, Milton Bradley games and toys, Breck hair preparations, Buxton billfolds and Absorbine Junior liniment are typical examples.

The city imports most of its basic raw materials and relies upon its ample supply of skilled labor and its native ingenuity to maintain its industrial position.

Freight rates for the shipment of raw materials and finished products permit local manufacturers to compete with manufacturers in other parts of the country.

Springfield is a growing city. Its rolling hills rising from the Connecticut River provide excellent residential sections for new homes. Residents in the "City of Homes" experience typical New England seasons with charming summers and cold winters.

THE SPRINGFIELD (U. S.) ARMORY is located on a rise commanding the city and the Connecticut River. It was established in 1789 by George Washington, and is the home of the famous Springfield and Garand rifles. Basic mechanical skills developed here by generations of metal workers have made Springfield a center of American craftsmanship. The public may visit the grounds and buildings by arrangement with the Office of Public Information.

THE SMALL ARMS MUSEUM at the Springfield Armory was established in 1871 and is considered one of the finest of its type in the world. It has approximately 5,500 small arms ranging from the earliest inventions in the 14th century up to the modern arms of today.

Entrance to the Administration Building, Springfield (U. S.) Armory, whose site was selected by George Washington in 1789.

RETAIL TRADE

Springfield retail sales for 1958 were $256,188,000 and its retailers served a territory containing approximately 796,700. The two main department stores of Springfield do an annual business in excess of $26,000,000. The large proportion of merchandise carried in Springfield stores is of a quality nature.

WHOLESALE TRADE

Springfield is served north, east, south, and west by trunk line railroads and it has consequently become a well-known jobbing center. Stocks carried in Springfield cover practically every well-known product manufactured in the United States applicable to the northern climate. Springfield is the distributing center for all of New England for many items.

PLANNING

The City Planning Board's work is of outstanding value in its efforts to project and maintain the future development and growth of Springfield.

HOSPITALS

Hospital facilities are excellent with specialists in every medical field. In late 1962 the total number of hospital beds was 1,783 with a potential of 1,959. In the Greater Springfield Area there were 2,035 beds in late 1962. Many of these hospital facilities are modern buildings and all have up-to-date equipment. The Wesson Maternity Hospital was opened in 1953, at a cost of approximately $2,000,000 and the Springfield Municipal Hospital was completed at approximately $9,000,000 in 1954. Springfield also has the Shriners' Hospital for Crippled Children. A considerable number of new beds and facilities are constantly being added to augment the city's medical resources. Springfield also has outstanding nurse and technical training schools and excellent nursing homes and infirmaries.

CHURCHES

OLD FIRST CHURCH ON COURT SQUARE stands on the site of the original meeting house built in 1645. The present chapel, designed after the manner of Christopher Wren, was built by Isaac Damon in 1819.

PARKS

Mountain Goats from Asia are seen at the Zoo in Forest Park.

Springfield's average of one acre of public parks for every 78 people is well above the nationally recognized standard of one acre for every 100 people. The city offers more than 2,228 acres of park land for its citizens. The largest unit of the city park system is Forest Park (735 acres), one of the foremost natural parks in the country. The park has an outstanding zoo, with a large collection of animals, including lions, deer, monkeys, and birds. It also offers more than 30 tennis courts, a stadium, a ball field, an archery range, a bowling green, shuffleboard courts, and boating and fishing on Porter Lake. There are many beautiful walks and there are numerous secluded tables for picnic areas. Flowers (roses, iris, mountain laurel, rhododendron) are also resplendent in season.

Other parks in the city are Blunt and South Branch Parks and there are smaller recreation areas and parks in the city which contain picnic groves, play equipment and nature trails.

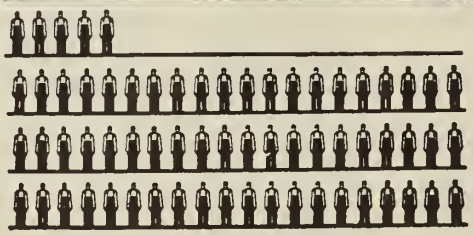
THE LOGICAL PLACE TO LOOK FOR IT . . . .

Think of the DIRECTORY when you are looking for names and addresses and street locations. It's the logical and quickest place to get the information you want. Use the DIRECTORY.

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to **18%** Move away or die



17% to **19%** "New" people move into town or reach listing age.

(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

STOP OR GO!

Red means Stop—Green means Go. Your ad in the Directory is the Green signal to Go—and the results will be a Green light all along the way.

THE ONLY AUTHORIZED JEEP AND TOYOTA DEALER IN SPRINGFIELD

SALES AND SERVICE

TOYOTA
LAND CRUISER

THE IDEAL VEHICLE FOR HAULING TRAILERS

The Toyota Land Cruiser has the power and stamina to tackle practically anything. On the highway, it will go up to 85 MPH with ease. When the road runs out, the Toyota Land Cruiser sees you safely over sand, swamp or snow. On any job, it works hard, pulling its weight — and more! For the sportsman, the Toyota Land Cruiser finds new hunting and fishing spots others can't reach. There's no other 4-wheel drive utility vehicle from which you can ask so much — and get it!

WORLD'S TOUGHEST ALL PURPOSE 4-WHEEL DRIVE VEHICLE!

"JEEP" "WAGONEER" AND ALL OTHER MODELS

Clean as a whistle . . . and just as apt to attract attention. That's descriptive of the functional beauty — inside and outside — of the "Jeep" Wagoneer 4-Door Station Wagon. Here's a multi-use family car that's never out of place.

Gas

THE MODERN INDUSTRIAL, COMMERCIAL and RESIDENTIAL FUEL

Operation of a modern plant or store requires top grade services — they are important to profits, employee morale and customer satisfaction. Gas is the modern fuel for heating, air conditioning, water heating and various special uses. Gas can make money and friends in the long run — that's the reason why so many businessmen are including Gas equipment in their remodeling or building plans.

Your home, the house where your family can live and enjoy modern comfort in safety is an important mark of a man's success. It is natural that Gas, the modern fuel, is preferred for so many uses. "Only Gas is better, faster, cheaper" — and service is free.

For business and home, get the facts about Gas, for . . .

- **Central heating** — clean, silent, service free
- **Air conditioning** — modern, efficient, simple
- **Incineration** — fast, clean, inexpensive
- **Refrigeration** — quiet, dependable, economical
- **Water heating** — low cost, fast, effective
- **Space heating** — portable or stationary, economical
- **Cooking** — fast, modern, dependable
- **Special uses** — call us for any special fuel problem you have—our engineering department is at your service to help you get the best answer

LENOX
THE TOOLS IN THE PLAID BOX

BAND, HACK & HOLE SAW BLADES • FILES GROUND FLAT STOCK

"ENGINEERED PERFORMANCE" might be the title of the story of the American Saw & Mfg. Company, founded in 1915. From the early years, when LENOX tools were skillfully hand-crafted, to today's enormously efficient, automatic production facilities, no effort has been spared by American Saw to produce the best metal cutting tools of their types on the market. LENOX engineers are constantly developing and improving products for the metal-working industry, and specially designed machines maintain the closest possible tolerances during the manufacture of these products.

BANDS — used in contour sawing, production cutoff work. *Regular* — standard, carbon-steel blade, precision-milled for clean, straight cuts. *Master-Band* — alloy-steel blade, claimed by users to outlast four-to-eight regular blades; cuts tough steel alloys. *High Speed Steel* — long-wearing, high-speed steel blade for heavy-duty, precision cutting.

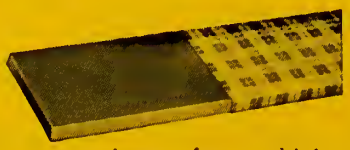
HAND HACKS —

used in tool rooms, maintenance work, installation work. *Hackmaster* — unbreakable, high-speed steel blade; teeth hardened to extreme toughness. *Mo-Speed* — high-speed steel blade for clean cutting through toughest steels. *High Speed Steel* — high-speed steel blade for special applications. *Standard* — carbon-steel blade, all-hard or with flexible back.

POWER HACKS — used in heavy production work. *Hackmaster* — shatterproof blade with high-speed steel cutting edge for toughest materials. *Mo-Speed* — rugged, high-speed steel blade, effective in heavy duty work with close tolerances. *High Speed Steel* — high-speed steel blade for special applications.

HOLE SAWS — used in metal-cutting, electrical, plumbing automotive trades. *Welded-Edge Shatterproof* — shatterproof blade capable of cutting clean, round holes in any machinable material; high-speed steel cutting edge welded to tough, alloy-steel back.

FILES — complete, *Grade A* line to meet industrial and consumer requirements. *American Pattern* — cutting surfaces, shapes, and sizes to fit every type of filing application. *Curved Tooth* — wide selection for surface finishing; effective wherever a smooth finish is required on sheet steel, stainless steel, aluminum, and other metals.



GROUND FLAT STOCK — for eliminating expensive machining and grinding operations. *Precision-Master, Oil Hardening* — quality tool steel for heat-treated parts; retains close tolerances. *Air Hardening* — wear-resistant, free-machining stock for heat-treated parts. *Low Carbon* — cost-saver for making up tools, jigs, dies, and machine parts not heat-treated.

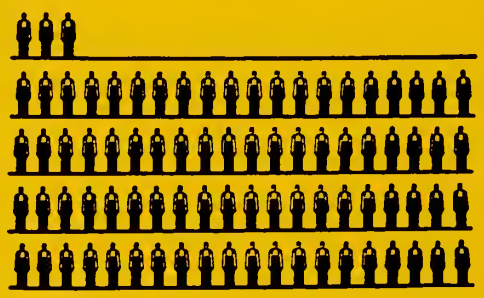
ADVERTISERS WHO KNOW

That which makes any advertiser's approval worth while is the prominence he has attained in his particular line of work.

The *advertisers in the Directory* are competent judges on the subject of advertising mediums — the fact that they approve of *Directory advertising* is evidenced by their continued patronage.

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.
